

Green Bharat

Let's Cultivate a Green World

Dedicated to greening the world, we are undertaking environmental improvement initiatives in Coimbatore. Our Green Bharat project focuses on activities such as planting tree saplings on pond banks to preserve nature, preparing and distributing seed balls, and providing thousands of tree saplings to farmers and volunteers on important days like Founder's Day.

Activities

We plant tree saplings on the banks of ponds in Coimbatore, enhancing greenery and promoting environmental balance.

We prepare and distribute seed balls to encourage tree cultivation and ensure sustainable development.

On important days, we distribute thousands of tree saplings to farmers and enthusiastic volunteers, enabling them to contribute to a green future.

Our Understanding

Our aim is to engage communities, farmers, and volunteers in tree planting efforts to create a sustainable and green environment. We seek to foster awareness for responsibly preserving nature and ensuring a healthy earth for future generations.

Join the Green Movement

We invite you to join us in all ways—such as distributing tree saplings, preparing seed balls, or spreading awareness—to come together, participate in this noble task, and transform our world into a green and vibrant one.
